

School Cancellations

The Auburn School Department conducts school on each of the days that school is scheduled if at all possible. However, there are times when the weather conditions cause cancellation. The School Committee authorizes the Superintendent, in coordination with weather services, public works, and other resources, to determine when a school day is to be cancelled.

Parents are expected to use their own discretion about keeping their child(ren) at home if they believe conditions warrant.

Unless there are extremely unusual circumstances, once school is in session, there will be no early dismissal.

The Auburn School Department shall distribute this policy to staff, students, and parents on an annual basis through handbooks, newsletters, announcements and/or other means deemed appropriate by the administration.

Adopted: February 28, 2001
